

SECTION B-B

SECTION A-A
CONCRETE ANCHOR SLAB

NOTES:

1. For additional details of this crash cushion, refer to manufacturer's installation instructions.
2. For details of the REACT Crash Cushion with concrete backup block (no self contained backup support), see Standard Plan A82C1.
3. This crash cushion comes from the manufacturer as a completely pre-assembled unit, including the self contained cable backup support.
4. Place the crash cushion unit on the cured concrete anchor slab and use the base track frame of the crash cushion as a template for drilling anchor bolt holes. Drill holes in slab and attach crash cushion with wedge anchor bolts supplied by the manufacturer.
5. Place manufacturer supplied cover over cylinders and attach cover to cylinders with manufacturer supplied fasteners.

LEGEND:

9SCBS = 9 Cylinder Cushion with Self Contained Backup Support

Fixed Object, see Standard Plan A82D2 for alignment and connection details of crash cushion with the fixed object.
